Link-Belt 360 X2 Rubber-Tired MH Machine

LBX will showcase the new Link-Belt 360 X2 Rubber-Tired material handler at the upcoming ISRI show in San Diego. The prototype model will be on display at the show May 5 – 7, 2010.

“This is an exciting new addition to our product line,” said Rob Brittain, Product Manager for LBX. “Link-Belt is well known in the scrap recycling industry as being strong, reliable equipment and the 360 will deliver the same performance and durability our products are known for.”

The 360 X2 RT is equipped with an Isuzu diesel engine rated at 271 net horsepower and the machine weighs approximately 95,000 lbs. Other standard features include hydraulic cab riser, 55-foot reach attachment, 2-speed transmission with planetary 4WD axles, 2-wheel steer with axle oscillation and (4) solid single tires.

The 360 X2 RT is currently undergoing testing and production is scheduled for later this year with availability in January, 2011. The company will continue to produce its tracked versions of Link-Belt material handlers.

Link-Belt 360 X2 RT Specs

Weight: 95,000 lbs. (42 865 kg)
Horsepower: 271 net (202 kW) @ 2,000 rpm
